

The International Symposium for Integrated Lake Basin Management (ILBM) in Africa

- Accelerating the TICAD Process through Sound
Management of Lakes and Reservoirs -

June 1, 2013 Sat.

13:00~15:30

Venue: Pearl Banquet Room, 1st Floor,
InterContinental Yokohama Grand

Registration Fee : Free

Language: English, French, and Japanese
(simultaneous translation to be provided)

Limited to the first 70 arrivals

Program [Program is subject to change without notice]

Opening Remarks

Hironori Hamanaka, Director General, ILEC

Keynote Speech

Madhav Chitale, Stockholm Water Prize Laureate for 1993

Panel Discussion

Moderator

Masahisa Nakamura, Professor, Shiga University

Presenters and Panelists

Obiero Ong'ang'a, Executive Director, OSIENALA (Winam Gulf, Lake Victoria)

Jackson Raini, Executive Director, FlamingoNet (Lake Nakuru)

Portia Chifamba, Senior Lecturer, University of Zimbabwe (Lake Chivero)

Jinhua Zhang, Programme Officer, UNEP Regional Office for Asia and the Pacific

Organized by International Lake Environment Committee Foundation
TEL: 077-568-4567 E-mail: infoilec@ilec.or.jp

Supported by UNEP, Embassy of the Republic of Zimbabwe, Tokyo, Japan, Embassy of the Republic of Kenya in Japan, Ministry of Foreign Affairs, Ministry of the Environment, Environmental Restoration and Conservation Agency, Japan International Cooperation Agency, and Shiga University-RCSE

Background of the symposium

International Lake Environment Committee Foundation (ILEC), in cooperation with Research Center for Sustainability and Environment, Shiga University (RCSE-SU), has undertaken a project entitled "African Lake Basin Management with Sanitation Challenges (AFSAN)" from FY 2009 to FY 2011, with financial support from the Ministry of the Environment, Japan. In the course of implementing the project, Lake Victoria, Lake Nakuru, and Lake Chivero have been able to complete the initial phase of the ILBM Platform Process.

With such a background, ILEC holds a TICAD V-affiliated symposium entitled "The International Symposium for Integrated Lake Basin Management (ILBM) in Africa: Accelerating the TICAD Process through Sound Management of Lakes and Reservoirs" that would be instrumental in promoting the ILBM approach throughout the African continent.

Integrated Lake Basin Management (ILBM)

Integrated Lake Basin Management (ILBM) is a conceptual framework to assist basin managers and stakeholders in achieving sustainable management of lakes and their basins, which integrates six components, "Institutions", "Policies", "Technology", "Participation", "Information" and "Finance". It is expected to improve the state of world's lakes.

Access to the venue

INTERCONTINENTAL YOKOHAMA GRAND

1-1 MINATOMIRAI NISHI-KU, YOKOHAMA, JAPAN TEL: 045-223-2222
