ILEC e-zine - Save Water, Save Lakes -  
International Lake Environment Committee Foundation (ILEC)

Vol.57: The video of the side event “International Colloquium” at WLC19 is now available!

The International Lake Environment Committee Foundation (ILEC) has announced the release of a video for the International Colloquium “Promoting Sustainable Lake Management (SLM): Challenges, Achievements, and Lessons Learned”, held as a side event of the 19th World Lake Conference (WLC19) on November 6, 2023.

Co-organized with the United Nations Environment Programme (UNEP), this hybrid event took place both in-person and online, attracting 134 participants from over 16 countries.

The Colloquium focused on the significance of Sustainable Lake Management (SLM) in achieving water-related Sustainable Development Goals (SDGs). Discussions centered on the role of Integrated Lake Basin Management (ILBM) as a tool to promote and share the importance of SLM, building upon the resolution adopted at the 5th United Nations Environment Assembly (UNEA5.2) and the March UN Water Conference.

You can find the video on the ILEC website at <https://www.ilec.or.jp/en/news/14291>
