

19th World Lake Conference

-High School Student Session -

~Research Presentations and Recommendations ~

by High School Students for the Future of Lakes

In preparation for the 19th World Lake Conference, four exchange meetings were held between high schools in Hungary and Japan, where students learned about Lake Balaton and Lake Biwa, and students discussed the future vision of the lakes and what they can do to conserve them. In this session, each of them will present the outline of the research they are conducting based on the exchange meetings, as well as recommendations from the high school students for the future of the lake.
